Experience

Student Intern: BCPL– Dibrugarh (May 2025 – June 2026)

- Studied advanced principles of VLSI design and automated systems through intensive workshop programs
- Collaborated with senior engineers to develop enhanced project management strategies for incoming technical projects
- Analyzed team dynamics and workflow processes to optimize project execution efficiency
- Contributed to technical documentation and research methodologies improvement initiatives

Research Intern: Center of Neuroinformatics, VIT Chennai | Current

- Conducting research on neuroinformatics applications and data analysis techniques
- Developing software solutions for neuroscience data processing and visualization
- Collaborating with interdisciplinary research teams to advance project objectives

Education

Bachelor of Technology – Electrical and Computer Science, VIT Chennai, Chennai,

Expected Graduation: July 2028

- Active participant in Power Electronics and EYSCOM research projects
- Currently engaged in Software Development project under CINI SRIP 2024 program
- Focus on VLSI design, automation systems, and data analysis methodologies

High School Diploma: Kendriya Vidyalaya, Hyderabad | Graduated: April 2024

- Ranked in top 10% of graduating class
- Strong foundation in mathematics, physics, and computer science

Projects

AI-Powered Resume Analyzer

- Developed intelligent web application utilizing machine learning algorithms for resume analysis and optimization
- Implemented natural language processing techniques for skill extraction and job matching
- Created user-friendly interface with real-time feedback and improvement suggestions
- Technologies: Python, Machine Learning, Web Development, Data Analysis
- Smart Prepaid Energy Module with Mobile Application
- Designed and developed IoT-based energy monitoring system with integrated mobile application
- Implemented automated billing and consumption tracking features
- Created real-time energy usage analytics and reporting dashboard
- Technologies: IoT Systems, Mobile App Development, Database Management, Automation

Web Application Portfolio

- Developed multiple responsive web applications focusing on user experience and functionality
- Implemented modern development practices including responsive design and API integration
- Demonstrated proficiency in full-stack development and project management
- Technologies: JavaScript, HTML/CSS, Database Integration, API Development

CERTIFICATIONS & ACHIEVEMENTS

Professional Certifications:

- Web Development Certification – Online Professional Course
- VLSI Design & Implementation Certification – Technical Training Program
- Artificial Intelligence & Machine Learning Certification – Online Specialization Course

Academic Achievements:

- Top 10% Academic Performance – High School (2024)
- Active Researcher – CINI SRIP 2025 – 2026 Program
- Project Contributor – Power Electronics & EYSCOM Research Initiatives

About Me

Dedicated and analytical Electrical and Computer Science student with proven expertise in VLSI design, automation systems, and software development. Experienced in data analysis, research methodologies, and technical communication with a strong track record in project management and team collaboration. Currently contributing to cutting-edge research projects while developing innovative web applications and automated systems. Committed to leveraging technical skills and analytical mindset to drive successful project outcomes in technology-driven environments.

Skills

Hardware & Design:

- VLSI Design & Implementation
- Automated Systems Development
- Power Electronics Systems

Programming & Development:

- Programming Languages (Python, JavaScript, HTML/CSS)
- Web Application Development
- Software Project Management
- Database Management

Research & Analysis:

- Data Analysis & Interpretation
- Research Methodologies
- Market Research & Analysis
- Technical Documentation

Professional Skills:

- Project Management & Strategy
- Team Collaboration & Leadership
- Technical Communication
- Problem-Solving & Analytical Thinking

languages

- English: Advanced (C1)
- Telugu: Native Speaker
- Hindi: Advanced (C1)
- Tamil: Upper Intermediate (B2)
- Spanish: Intermediate (B1)
